Thanks for looking at my cookery class recipe teasers. This gives you an idea of what can be accomplished in the session. The classes are fun, inspirational and hands on. I hope to be able to give you some new ideas and recipes for cooking exciting vegetarian food at home and also show you how to make it look great. You get provided with an apron and all the ingredients for the session. The classes last 2 hours in my kitchen and after tasting your culinary delights you can then take them home to enjoy with your family or friends.
